## DON'T LEAVE NORWAY

No Need to Seek Afar. The Evidence Is At Your Door

No need to leave Norway to hunt up proof, because you have it here at home. The straightforward statement of a Norway resident like that given below, bears an interest for every man, woman or child here in Norway.

Albert F. Prescott, shoemaker, Crockett's Bridge, Norway, says: "My kidneys gave out a year ago and I had backache so badly it put me past going for several days. I couldn't bend, I was so stiff and lame. I was working in the ship yards at the time and I blame so much heavy lifting for my trouble. I had to get up several times during the night to pass the kidney secretions and I felt drowsy all the time. Finally I went to Stone's Drug Store and got three boxes of Doan's Kidney Pills and began using them. Doan's reached my case at once and after using three boxes, the trouble left me entirely. I have felt fine since."

Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Prescott had. Foster-Milburn Co., Mfrs., Buffalo, N. Y.

BRYANT'S POND, ME.  
DOES IT PAY TO WORRY ABOUT APPENDICITIS?

Can appendicitis be guarded against? Yes, by preventing intestinal infection. The intestinal antiseptic, Adler-ika, acts on BOTH upper and lower bowel removing ALL foul, decaying matter which might start infection. EXCELLENT for gas on stomach or chronic constipation. It removes matter which you never thought was in your system and which nothing else can dislodge. One mar reports it is unbelievable the awful impurities Adler-ika brought out. ## AEROBELL

## Electric Vacuum Clothes Washers

The Aerobell is backed by a broad gauge guarantee which insures your satisfaction.

The Aerobell embodies the improvements for which you have been waiting: Aluminum wringer frame, new type safety release, big round copper tub with full opening, and only three legs for steadiness on uneven floors.

Air Pressure and Suction in the vacuum cups actually draw the soap suds through the fabrics. You can hardly believe how quickly and thoroughly the air-cushioned vacuum cups clean, and they can't harm the most delicate articles. There is no belt, and the mechanism is under the tub, out of the way.

The Aerobell is simple in construction and built to stand years of hard work. It is designed to reduce effort to a minimum. You can depend upon it day after day, year after year.

Principle of Operation—When the washer is in operation the vacuum cups inside the tub move up and down upon the clothes. At the end of each upward stroke the cups rotate partially around the tub and come down in a different position. Thus, all the clothes in the tub are acted upon equally. On the downward stroke as the cups reach the water they entrap the air, and as the stroke continues these air cushions press against the clothes, forcing the soapy water through the pores of the cloth.

On the upward stroke a vacuum is created which draws the soap solution again through the meshes. Thus, as the vacuum cups reciprocate they continue to force the hot suds back and forth through the fabric. During this operation the clothes change their position in the tub slowly so that all of them in turn come under action of the cups. The action above described will cleanse the heaviest blankets and the daintiest fabrics with equal effectiveness and without the slightest injury.

The capacity of the Aerobell is 8 sheets or their equivalent.

She Took Lydia E. Pinkham's Vegetable Compound and Escaped the Operation Doctor Advised

Louisville, Ky. — "I wish to thank you for what your medicine has done for me. I was in bed for eight or nine days every month and had a great deal of pain. The doctor said my only relief was an operation. I read of Lydia E. Pinkham's medicines and tried the Vegetable Compound and the Sana-tive Wash, and they surely did wonders for me. I feel fine all the time now, also am picking up in weight. I will tell any one that your medicines are wonderful, and you may publish my letter if you wish." — Mrs. Ed. ### WOODSTOCK

Woodstock High School Principal  
The many friends of Principal and Mrs. R. Harold Gillmore were very sorry to learn that they were leaving town. Mr. Gillmore resigned from the High School here to accept a position in North Conway, N. H. While we regret their departure we are glad to know that he has such a fine position.

Woodstock High School has made splendid progress during the two and one half years of Mr. Gillmore's supervision. Several new courses have been introduced and in athletics the school has made an excellent showing. It was largely through Mr. Gillmore's efforts that the town was brought to see the necessity of a larger school building and today the pupils are enjoying one of the best High School buildings for the size of any town in the state.

The High School students tendered Mr. and Mrs. Gillmore a reception at the High School building Wednesday evening, Feb. 21, which was well attended by the pupils and the townspeople. Mr. Gillmore was presented with a very nice gold pencil and Mrs. Gillmore with an olive set and a mayonnaise set. Refreshments of sandwiches, cake, cookies, home-made candy and punch were served. Games, dancing and a general good time was enjoyed and all departed wishing Mr. and Mrs. Gillmore the best of success in their new home.

WAITIN'

Somehow we're always waitin'—

Waitin' for somethin' new—

Waitin' for some one to come in,

Waitin' in daylight for night time,

Waitin' at night for day,

Waitin' whenever we're workin'—

Waitin' a chance to play!

Life is just made of waitin'—

Waitin' a little longer, too—

Waitin' an' hopin' an' waitin'—

Waitin' until we are through—

DON C. SEITZ
